

## June 2/Day 153

- Does it seem like we've skipped a book or two? Remember, we are reading through the Bible chronologically. We are up to the early part of Solomon's reign. This book is believed to have been written circa 965 BC.
- According to 1 Kings 4:32, Solomon wrote 1,005 songs. This is one of them. He identifies himself as the author in the first verse.
- As songs are poetic, this poem is meant to express delight over the love between a husband and wife. It is written about Solomon and his Shulammitte bride. It can be divided into three parts, the courtship, the wedding, and then the marriage.
- Enjoy this beautiful picture of love within the context of marriage. There are eight short chapters. Read it like the love letter it is.
